

Automatic Roll Packing Machine

BDP ▶ Dual Packing

BDP is fully automatic fabric roll packing machine with dual sealing of sides and width. It produces presentable packed rolls with high production rate. After packing fabric rolls are transported to a shrinking unit, which again is doffed on trolley. It automatic wraps poly film upto 500mm diameter fabric roll, 60-80 fabric roll/hour pacing capacity, PLC controlled command system, Auto entry to machine from multiple machines through conveyor system and sorting as per customer, design, etc. are some of the special features of this machine.

Features:

Control Panel

Feed Conveyor

Auto Pusher

HMI

Heat Shinking

Packing Rollers

Auto Ejection

Italian Geared-Motor

Optional:

Data Logging Software (IGS)

Touch Screen

Barcoding

Auto Weighing

Sorting Conveyors
