

BR+BT ▶ Brushing & Beating

B-TEX Brushing & Beating Machine is a reliable tool to remove working impurities from fabric. It brushes and beats the fabric and all the dust is taken away by high pressure suction device. Modular Design of **BIM-BR+BT** allows to fix this unit by means of just 4 bolts on any existing machine like, Stenter, Sizing, Calendar, Inspection, etc. Compact design enables easy compatibility with the existing machine and it's addition will definitely help you save manpower, space and time.
