

Desire ▶ ABB+RR

Features:

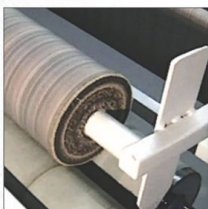

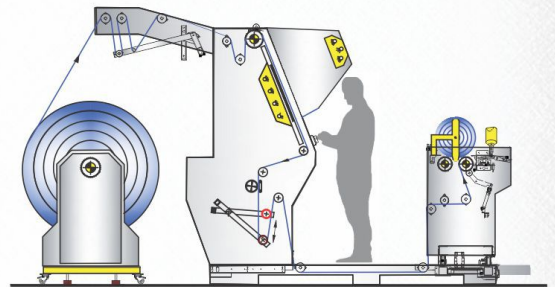

- Control Panel
- Feed Axial Driven
- 6-Positive Drives
- Perfect Sync.
- Inspection
- HMI
- Rolling
- Dual Dancing Compensator
- Full Length Reversing
- Electronic Counter
- Anti-Slip Mechanism
- Variable Speed
- Edge Guider
- 2 Driven Scroll Rolls
- Illumination
- Paper Tube Rack
- Italian Geared-Motor
- Powder Coated

Optional:

- Data Logging Software (IGS)
- Touch Screen
- Hood
- Rolling Face In/Out
- Auto Cutting
- Auto Weighing
- Auto Ejection
- Conveyor System
- Barcoding

Desire by being the only high-tech & zero tension machine of it's kind ensure your efforts to deliver high quality fabric is achieved. That's not all, full PLC controls & six positive drives makes sure that your fabric flows without tension, stretch, elongation, crease & produces edge aligned, compact & presentable rolls like a Symphony of Melodies. With unparalleled & personalised after sales service, **Desire** is a solution to all your testing woes.

B-Tex Inspection and Grading System (IGS) software can be installed with touch screen, where in Mapping module defects can be logged and later optimized for cut-plan to deliver first choice fabric with high production.

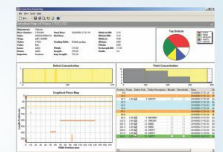

IGS – Inspection and Grading Software

IGS is designed to grade the fabric quality by defect logging as per international 4 Point System. Mapping Module, Optimisation Module and Auto-Cut modules ensures to deliver High 1st Choice fabric, minimise wastage, optimised cutting and reduce labour.
